Why Connect?

By joining a local SHRM-affiliated chapter, you gain access to HR professionals and companies in your community. This creates a network for you to tap into when gathering information on how other local organizations handle various human resources situations, procedures, policies, etc.

Local chapters provide professional development opportunities to improve your HR competencies in local, state, and national HR

management, compensation, benefits, and training programs. Many are HRCI certified.

A multitude of leadership and team-building opportunities await, such as joining a committee or taking on a leadership role with your local chapter.

Don't forget: SHRM membership is separate from membership in a local chapter. Each chapter has its own membership application process and dues structures.
